Honorable Members of the Fort Worth Zoning Commission

re: ZC-23-067

Dear Commissioners:

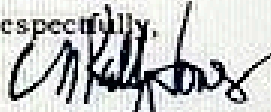

Please allow me to express my opposition to ZC-23-067, which is a rezoning request for 2.95 acres located at 4500 and 4570 White Settlement Road in Fort Worth.

Westworth Village's residents are acutely aware of the explosive apartment growth occurring in Fort Worth's River District. The effect upon White Settlement Road running through Westworth Village to the west could not be more predictable -- grossly increased traffic and congestion is the inevitable result.

It is a gross understatement to state that our citizens are disappointed with the River District's multi-family explosion. Quite simply, they detest its effect upon our little town.

While I recognize it is outside of my jurisdiction, I most respectfully urge you to stem this negative effect by denying this large zoning case which will add yet even more multi-family units with an inevitable negative impact upon Westworth Village.

Respectfully,

Mayor L. Kelly Jones

LKJ/kb
